

Eltek is a brand of Delta

Delta Electronics acquired Eltek in 2015, both founded in 1971, they share a history of innovation, ambition and high performance and have, individually and together, played an active role in shaping the power and infrastructure solutions markets that form the the basis for our modern, connected world.

Combined, Delta and Eltek are market leaders in telecom power within the EMEA region. By building on the combined expertise and resources and cultivating the unique properties of Delta, we can offer our customers the freedom to choose from a wider range of products and solutions.

Whether our customers need high-efficiency power supplies, renewable energy solutions or data center solutions, we have the expertise and experience to meet their needs.

By combining the strengths and resources across our global organization, we are able to provide first class services and support across the world. We are committed to delivering reliable, sustainable, and cost-effective solutions that help our customers achieve their goals and power a greener tomorrow.

IPack65 Unleash the power of 5G

Ready for 5G

IPack65 is the perfect solution for power-hungry 5G telecom networks.

Maintenance free, super-efficient and lightweight, it provides a fast and flexible way to the world of 5G -while building a high-quality network with low operational cost.

- 1** Dust-and waterproof
No regular maintenance
- 2** Lightweight and small
Easy to deploy
- 3** Super High Efficiency
Lower energy cost and CO² footprint
- 4** Built-in smart controller
Ready for the cloud and smart management
- 5** Great application flexibility
Perfect for 5G and any application between 2-8kW
